<https://keepplay20.github.io/tech-practice-hub>

Highly skilled SDET with 8+ years of experience in both manual and automated testing across mobile, web, and Linux-based platforms. Adept at designing scalable automation frameworks, integrating CI/CD pipelines, and working in Agile environments. Known for strong debugging, mentoring, and cross-functional collaboration skills to ensure high-quality product releases.

## Experience

### ● Dream11 — SDET 2

Aug 2021 – Present

- Aug 2021 – Present | Mumbai, India
- Led automation initiatives for both Android and iOS platforms ensuring front-end quality.
- Designed a mock payment framework to automate deposit/withdrawal scenarios.
- Reduced regression testing time from 2 days to 4 hours through full automation.
- Developed Jenkins pipelines to build and execute tests with Slack integration.
- Mentored juniors in automation best practices and Agile ceremonies.

Tech Stack: Appium, Jenkins, TestRail, Slack Bot, Postman, Burp Suite

### ● Gupshup — Software QA Engineer

Feb 2019 – Aug 2021

- Automated backend components including HTTPSender, SMSSender.
- Conducted performance testing using JMeter and Postman.
- Wrote shell scripts for test data generation in manual testing scenarios.
- Guided team members and reviewed test coverage regularly.

Tech Stack: Java, JIRA, MySQL, Postman, JMeter

### ● VXL Instruments — Software Tester

Nov 2016 – Feb 2019

- Tested Linux-based OS (LetOS and Gio6) and web-based management tools.
- Automated web application (Lenovo Terminal Manager) using Selenium + TestNG.
- Defined test cases, executed test plans, and collaborated closely with dev teams.

Tech Stack: Selenium, TestNG, Linux OS

### ● Freelancer

Nov 2015 – Nov 2016

- Delivered various testing and automation assignments for clients in startup ecosystems.

### ● Wipro — Technical Consultant

Mar 2014 – Nov 2015

- Installed, configured, and supported Microsoft SharePoint 2013 & SharePoint Online.
- Supported users in EMEA & APAC regions.
- Developed custom SharePoint pages for business process automation.

## Education

---

- Bachelor of Engineering in Computer Science
- Pune University
- Grade: Distinction

*June 2009 – May 2013*

## Tech Skills

---

- Testing & Automation: Appium, Selenium, TestNG, JUnit, Postman, Burp Suite
- Languages: Java, Shell Scripting, JavaScript, HTML, CSS
- Frameworks: Page Object Model (POM), Keyword Driven
- Tools: Jenkins, GitHub Actions, JIRA, TestRail, Slack Bot
- Databases: MySQL
- Platforms: Android, iOS, Web, Linux (Gio6, LeTOS)
- Others: Performance Testing (JMeter), Agile Methodologies (Scrum), CI/CD, Git, React Native

## Certifications

---

- ISTQB Certified Tester – Test Automation Engineer (CT-TAE)
- ISTQB Certified Tester – Foundation Level (CTFL)
